January 20, 2021

The Registration, Evaluation, and Authorization of Chemicals (REACH) Directive, mostly recently updated on January 19, 2021, is intended to protect human health and the environment. Pelican Wire Company is a producer of "articles" and therefore must rely on suppliers for pre-registration.

REACH also addresses the continued use of the substances defined as "Substances with Very High Concern" (SVHC). Pelican Wire Company, Inc. does not intentionally use or add any of the SVHC above 0.1% weight and we have also confirmed with our raw material suppliers that these substances are not intentionally used or added above 0.1% weight. Additionally, these products do not contain any of the substances as described in Article 67 and Annex XVII (with amendments).

Restriction of Hazardous Substances (RoHS) Directive has a similar intent. The Pelican Wire Company confirms that, except where an exemption under the Annex to the RoHS 3 Directive 2015/863/EU applies, all materials, components, or assemblies that the Pelican Wire Company supplies do not exceed the proposed limits for the substances subject to the RoHS 3 Directive 2015/863/EU. This applies to all the individual homogeneous materials of which they are composed.

The information provided in this letter and disclosure is correct to the best of Pelican Wire Company's knowledge, information, and belief at the date of its release. The information provided is designed only as a general guide for the safe handling, storage, and any other operation of the product itself, or the product that it will become part of. The intent of this letter is not to be considered a warranty or quality specification. Regulatory information is for guidance purposes only. Product users are responsible for determining the applicability of legislation and regulations based on their individual usage of the product.

If you have any questions or need more information, please contact me directly at 239-597-8555.

Sincerely,

Kevin Clements
